This exploded view diagram illustrates the assembly of a shower system. The components are numbered as follows:

- 1**: Two identical rectangular control panels, one positioned at the top and one at the bottom of the main vertical pipe assembly.
- 2**: A central vertical pipe or riser.
- 3**: A horizontal pipe or elbow fitting that connects to the main vertical pipe.
- 4**: A long, thin horizontal pipe or arm extending from the left side of the main assembly.
- 5**: A circular shower head with a perforated face, attached to the end of the horizontal arm (4).
- 6**: A rectangular panel or cover, shown at the top of the assembly, likely for the shower head or a control panel.

The diagram shows the relative positions and alignment of these parts for assembly. Various connection points, such as nuts and washers, are indicated along the pipes.
